

The SportChassis DualSteer

EXCLUSIVELY FOR BUCHER MUNICIPAL

- Independent dual steer conversion installed authorized Freightliner OEM
- RH and LH independent steering boxes and shafts for non-influenced control
- Mirrored OEM dash and gauge cluster
- Full use of tilt and telescope steering column on both sides
- OEM engineered steering components steering arm, drag link, and steering gear
- The steering wheel, brake pedal, accelerator, wiper, and turn signal controls are virtually identical in both positions on the DualSteer
- Exceptional in cab ergonomics

The SportChassis DualSteer created exclusively for Bucher Municipal with the safest, most ergonomic vehicle conversion platform to pair with the best sweeper on the world market.

The independent DualSteer, manufactured and installed by an authorized Freightliner OEM. Both steer positions are precisely placed independent left and right-side driving positions equipped with separate steering wheels, steering shafts, steering gears, and steering linkages all selectable with the flip of a switch and in one impressive package.
