Maximise **speed** and **bin lift capacity** with Bucher Sport series

Faster, stronger and more reliable

Bucher Sport side loader series

Since its release in 1991, the Bucher Sport side loader has series led the market in side loader refuse collection equipment. The iconic Bucher Sport, which stands for Single Person Operated Refuse Truck, has evolved into a product that exceeds customer's expectations.

Specifically designed for the rugged Australian conditions, this side loader offers the fastest and highest capacity bin lifter on the Australian market.

Suitable for any waste collection including FOGO and recyclable collection, the Bucher Sport side loader comes in a variety of body sizes maximizing your cab chassis' payload potential and specific waste stream volume to fit your needs.

We build every truck individually to integrate the refuse body with your preferred cab chassis, maximising your uptime and minimising operating costs.

What **benefits** does the Bucher Sport side loader offer?

The fastest and highest capacity bin lifter in Australia. Capable of lifting up to 6 bins per minute providing reduced operational and maintenance costs.

Utilising the latest in touch screen technology, the Bucher iQ control system is the perfect balance between simplicity and technology.

Improved strength and longer working life. Designed for the rugged Australian conditions

Comprehensive range of safety features to suit your needs.

Creusabro hopper and Hardox body
for longer lifespan

Paddle packer
for faster hopper clearance and improved packing performance

Fastest and highest capacity bin lifter
for greater efficiency

Slim grab
with innovative knuckle design

Available in
14m³ to 35m³ body capacity to suit all applications.

Lowest body height
for accessibility

Lighter body
for increased payload capacity

Shortest wheelbase
for areas with restricted access

UG-6 Bin lifter
This innovative grab design provides easy access to bins placed close together with up to 20% improved productivity. It can also pick up all 2 wheeled MGB's from 60L-360L.

Extend-A-Slide
The longest bin lifter reach of 4480mm, allows easy access to bins past obstacles such as parked cars. It also eliminates the need for operators to exit the vehicle and reposition bins.

Bucher iQ CANBus Control System
This fully integrated 12" touch screen offers the operator with the latest technology and user interface for ease of operation.

Side Zone Object Monitoring System
A bin lifter collision avoidance system that detects moving objects in the working area and alerts the operator. Bin lifter operation will then stop if the object is in danger.

Weighing systems
Load cells mounted underneath the body or in the bin lifter, providing both total payload or individual bin weights.

Service & warranty
First service labor costs included. 1 year/2500hrs warranty provides comprehensive protection.
