

Train the Trainer

Bucher Municipal offers industry leading Train the Trainer for our range of sweepers, winter maintenance and gully equipment. Our Train the Trainer courses provide all the information needed for your own personnel to deliver operator training on Bucher products. We can also offer training on products from our historic brands (Johnston, Giletta).

Candidate Requirements

To ensure maximum possible value is obtained from the training, candidates should meet the following requirements:

- A valid driving licence for the class of vehicle.
- A minimum of three years of operational experience on the specific model of machine.
- Previous Bucher Operator Training on the particular model of equipment (or previous training on products from our legacy brands as mentioned above).

Course Details

- Certificated one-day course for one person, designed to enable you to deliver in-house training on Bucher equipment. This is conducted at your own premises, using your own vehicle. Candidates will be expected to demonstrate comprehensive knowledge on machine safety, regular checks and basic maintenance, and correct operation of equipment. In addition to observation and coaching on the above, topics covered include:
- Best practice operational techniques.
- Basic teaching techniques.
- Simple confidence building methods.
- Basic techniques for improving attitude and approach to operating equipment.
- Training pack including safety documentation, operator assessment form, training lesson plan and operator guide.
