

## Train the Trainer Course

Choosing a class leading Bucher sweeper as part of your fleet is a great decision, and Bucher believes the next wise choice is to ensure your capital investment consistently delivers 100% performance every working day by ensuring sweeper operators receive bespoke training which results in best practice for achieving consistent sweeper performance.

This one day course is suitable for personnel who have a minimum of 3 years experience, who have previously undertaken Bucher training courses in our range of sweepers. Following successful completion of intensive training, the candidate will be awarded a certificate (valid for 3 years), and is then qualified to train other sweeper operators within their organisation.

Topics covered:

- Best practice sweeping techniques
- Best practice Winter Maintenance techniques
- Best practice teaching techniques
- Techniques for confidence building
- Techniques for improving attitude and approach to vehicle operation
- Essential End of Day maintenance routines
- Essential Daily and Weekly maintenance routines
- Essential Health & Safety Instruction

For more detailed information on this course and other training that Bucher can offer, contact:
