

Bucher Municipal Ltd is a world leader in the design, manufacture, sales and aftersales support of road sweeping equipment for all applications ranging from street washers through to heavy duty, high speed and runway sweepers, winter maintenance equipment and sewer tankers and their associated options.

Our aim is to create a fast and flexible customer focused operation for delivering adaptive and innovative engineering solutions to the problems our customers face in a rapidly changing world. This will be supported by a team that enjoys coming to work and serving our customers each day. We must secure the fundamental skills required to deliver Right First Time throughout the organisation and increase our operational efficiency delivering enhanced shareholder value.

We recognise the impact of our activities on our environment and workforce and accept our responsibility to reduce the use and consumption of energy as a moral and social challenge. The company fulfils its compliance with international, national, local, legal and other obligated requirements.

The company's senior management team and all employees are committed to:

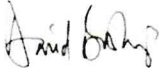

- Identification and elimination of hazards to reduce occupational risks for a safe and healthy work environment and conditions
- Prevention of work related injury and ill health
- Participation and consultation of the workforce in the improvement of the systems
- Procurement of environmentally friendly, energy efficient equipment and services, as well as the planning of new or modified facilities
- Energy efficiency as part of any redesigning and business change activity
- Encouragement of waste elimination, segregation and recycling throughout the business
- Reduction of the use and consumption of energy by improving energy efficiency
- Use of more sustainable modes of transport, and reduction of unnecessary travel
- Conformity of our products and services to our customers
- Excellent customer service
- Strong supplier relationships
- Continual improvement of our management systems and business practices
- Clear communication of relevant information pertaining to our business

The success of our Integrated Management System relies heavily upon all employees working towards the same objectives. To ensure all our employees are competent to do their work and control the risks arising from our activities, clear risk assessment based instruction, information and training is provided.

Our employees recognise their individual responsibility and contribution to:

- Safe working conditions
- Efficient energy consumption
- Excellent customer service
- Protection of the environment
- Prevention of pollution

This policy has been established and implemented by the company's senior management team as a framework to set and review the system objectives in order to continually improve the business management system. It is communicated to all employees and is available to the interested parties on request. The review cycle is set as once every 3 years or when a change to the conditions noted on this policy statement.
