PakMor Stationary Auger Compactor

PakMor Stationary Auger Compactor Specification Sheet

MODEL: SP10-A-90
 DATE: MARCH 2017
 SHEET: 1 OF 1

Model: SP10-A-90

The PakMor Single 900mm Stationary Auger Compactor is specifically designed for compacting large volumes of waste material. As a Stationary Compactor the machine is best suited for dry waste such as paper and cardboard. The Single 900mm Auger is ideal for retail outlets and industrial sites.

PakMor Auger Compactors offer a sealed compaction chamber without cavity for waste to collect, decompose and smell. Auger Compactors allow for loading over the front and either side from ground level.

The SP10-A-90 is driven electrically with an electric motor and gearbox to drives the auger. The auger is suspended in a trough, as the auger turns it crushes and forces waste into the collection body. Augers are the only style of compactor that allow for continuous loading.

Loading Hoppers, Doors, Chutes, Bin Lifters, cycle time, eye starting etc. are all customised to suit customer and site requirements.

The advantages of using a compactor:

- Reduce waste volume, reducing transport movements and costs
- Minimise waste storage space on site

Specifications:

Bin Capacity	: 10-60 Cubic metre
Auger Diameter	: 900 mm
Auger Speed	: 8 rpm
Motor Drive	: 10 kw
Head Weight	: 1750 kg
Power Supply	: 415 volt, 3 phase, 32 amp, 5 Pin

Schematics Layout:

Stationary Auger Compactor with a 38m³ Container.
 All dimensions are in mm.
